Meeting: Italian Society of Pathology and Translational Medicine

*INFLAMMATION:
from the Basics of
General and Clinical Pathology
to Personalized Medicine*

INTRODUCTION

The Italian Society of Pathology and Translational Medicine has a very old and authoritative tradition: founded in 1901 by Pio Foà and Benedetto Morpurgo, has listed among its affiliates Camillo Golgi, the first Italian to be awarded a Nobel prize (1906) and, to date, the only Nobel prize to be assigned in the medical-biological field for a discovery entirely made in Italy.

More than 200 of the major Italian and foreign researchers in the field of General Pathology, the science that seeks to understand the mechanisms of diseases, will meet in Udine to analyze the relationship between inflammation and diseases such as cancer, autoimmune and atherosclerosis-based cardiovascular diseases. A perfect mix of tradition and the frontiers of Science.

A BRIEF PRESENTATION OF UDINE/ HOW TO GET HERE

Udine is a small town in the middle of Friuli Venezia Giulia region, where cosy squares match with Tiepolo's paintings of the eighteenth century.

Our town welcomes you with the tastes of locally produced wines and delicatessen spread by the typical "hosterie".

Enshrined between the Alps and the Adriatic Sea, Udine is easily connected to the ancient austro-ungaric lands. On a bright sunny day the best view can be enjoyed from the castle hill, letting the sight wander from the red roofs of the city to the hills crowning the town suburbs.

By car

Motorway exits:

Udine Nord, more convenient to get to the Meeting venue, or Udine Sud to the city center.

By train

Udine railway station is close to the city centre and the hotels.

By plane - Trieste

The nearest airport is Trieste Airport (IATA code TRS), called "Aeroporto del Friuli Venezia Giulia" or "Aeroporto di Ronchi dei Legionari".

By plane - Venice

Venice "Marco Polo" airport (IATA code VCE) is served by all major airlines. From Venice airport you can reach Udine by train from the Mestre railway station, connected with convenient bus services. Trains run to Udine almost every hour and the journey takes approximately 90 mins.

UNA BREVE INTRODUZIONE A UDINE/ COME ARRIVARE

Udine è una piccola città nel cuore del Friuli Venezia Giulia, dove accoglienti piazze si intonano con i dipinti del Tiepolo del diciottesimo secolo. La nostra città Vi dà il benvenuto con i sapori diffusi dalle tipiche osterie che producono vini locali e specialità gastronomiche. Udine si trova proprio al centro tra le Alpi e il Mare Adriatico, facilmente collegata ai vecchi territori austro-ungarici. In una giornata di sole il panorama migliore può essere goduto dalla collina del Castello, lasciando vagare la vista dai tetti rossi della città alle colline che circondano la periferia.

In auto

Ci sono due uscite dall'autostrada: Udine nord, più conveniente per raggiungere la fiera/sede Congressuale, e Udine sud per raggiungere il centro della città.

In treno

La stazione dei treni di Udine è ad un passo dal centro della città e dagli hotel.

In aereo - Trieste

L'aeroporto più vicino a Udine è quello di Trieste (codice IATA TRS), chiamato anche "Aeroporto del Friuli Venezia Giulia" o "Aeroporto di Ronchi dei Legionari".

In aereo - Venezia

L'aeroporto "Marco Polo" (codice IATA VCE) è servito da tutte le principali compagnie aeree. Dall'aeroporto di Venezia si può raggiungere Udine in treno dalla stazione dei treni più vicina (Mestre), collegata con comodo servizio bus. I treni partono per Udine quasi ogni ora e il viaggio dura circa un'ora e mezza.
