Dear colleagues,
dear friends
It is a big honor to host all
of you in Perugia for the
SIPMeT Young Scientist
Meeting 2021.

The University of Perugia
is celebrating the 700th
Anniversary of the School
of Medicine founding, an
event that we are pleased
to honor with friends of the
Pathology's school.
On behalf of myself and
the local organizing
Committee I wish you a
successful meeting and
look forward to being soon
together in Perugia.

The SIPMeT Vice President
President of the Local
Organizing Committee
Luigina Romani

President Letters

Dear colleagues, dear friends,
it is with great pleasure that I see
you again in Perugia, a land very
dear to us, in the company of many
young people who have participated
by sending 186 abstracts.

It is an unprecedented success, especially
after two years of silence and no
congresses.

I am sure that our young people, who
represent the forge of our Pathology
schools, will know each other also
respecting the distancing rules, we want
to use a new application for this event
that allows you to download the program
and posters of the congress.

It will be a Congress, even close to the
Christmas holidays, that will bring us that
serene and hopeful soul to see us again
together and more and more numerous.

The SIPMeT President
Massimiliano M. Corsi Romanelli
