# Translational Pathophysiology

WELCOME MESSAGE

The transfer of knowledge from research to the clinic has become increasingly rapid, and more and more methodologies and information are being made available to the clinician and ultimately to the patient to address problems that were hitherto unsolvable or to which unsatisfactory answers were given. To do this, we need a new approach based on system pathophysiology: a framework that requires the integration of clinical sciences, -omics sciences, basic sciences, computer sciences, artificial intelligence, and technologies. It is precisely on these concepts that the idea of Translational Pathophysiology is based, and it is on this that the research challenge of the coming years in the service of health and the Person can be met. It is on this that our society is already committed, and the congress in Udine will allow us to exchange experiences and develop even more the leading role that we have always shown.

# Abstracts

## GUIDELINES & STRUCTURE

Congress delegates are invited to submit abstracts of their scientific work for presentation as a free communication at the SIPMeT Congress in Udine, 19<sup>th</sup>-21<sup>st</sup> September 2024.

An unlimited number of abstracts may be submitted provided the presenting author applies for free registration. Abstracts are welcome in all fields of General Pathology and Clinical Pathology.

Free communications are primarily presented via poster. A limited number of abstracts will be selected for oral presentation during the sessions.

Authors wishing to compete for these oral communication slots should mark the appropriate field on the on-line abstract submission form.

Properly submitted abstracts will be sent to experts for review and selection for oral communication.

### STRUCTURE OF THE ABSTRACT

Abstracts must be structured as follows:

**INTRODUCTION:** a brief introduction stating the purpose of the investigation and its relevance;

**METHODS:** a description of the methodology used;

**RESULTS:** to be supported by statistical or other evidence to show their validity;

**CONCLUSIONS**

### GENERAL REQUIREMENTS

The text must be clear, concise and written in proper English. The content must not have been previously published in academic journals or subject to peer review. Significant technical information must not be withheld. Abstracts must absolutely contain results. Statements such as “results will be discussed” are not acceptable and will lead to rejection.

The body of the abstract must not exceed 2300 characters, spaces included.

### DEADLINE FOR ABSTRACTS: 6<sup>th</sup> July 2024

- Receipt of the abstract will be acknowledged by e-mail immediately after submission.
- The presenting author of each abstract must register for the congress
